

CORE CONVICTIONS FOR MINISTRY WITH YOUTH, CHILDREN & FAMILIES

CCCNZ Youth, CCCNZ Children and Families and NZ Rally agree that the following convictions should shape our conversations and strategies, and help us work together effectively:

1. Discipleship

We believe that all ministry has as its core the desire to grow lifelong disciples of Jesus Christ.

2. Family

We believe that ministry to children and young people includes resourcing and supporting the entire family.

3. Leadership Development

We believe that all children and young people have the capacity to provide leadership and need encouragement and opportunities to do so.

4. Community

We believe that ministry to children and young people needs to have an outward component, serving the community and reaching people with the good news of Jesus.

5. Integration

We believe that children and young people are an integral part of the wider church where they are known, valued and involved.
